Chile Wood Industry Company

CHALLENGE

Growing company requires more cranes

Chile Wood Industry Company is a production plant specializing in wood import and export in Chile, manufacturing and selling various specifications of plywood.

it is necessary to add the cranes in the workshop to meet the increasing demand. The cranes are used to lift the 20 ft and 40ft containers full of cargo to the truck to better improve the production efficiency .

Clescraane
YOUR PARTNER

Tailor Made Solutions

From the designing phase, we provide clients the tailored solutions to realize perfect customization on every crane according to specific requests and to ensure the crane can meet customer's lifting demand exactly.

Clescraane offer all kinds of customized cranes according to different manufacturing process, which make the operations safer, more efficient, and more productive.

Besides, we also greatly invest in R&D and add new functions on cranes to improve safety and productivity in applications.

CW Series Open Winch Trolley
Max. Load: 320t

SERVICE

Our service solutions are specially made based on different requirements of individual clients.

Meeting their standards could remove any of their worries.

Including:

- Customized solutions
- Reliable, efficient and safe crane equipment
- High quality packaging
- Installation and assembly & test running
- Professional training
- Plenty of spare parts
- Maintenance
- Analysis and suggestions
- Intelligent crane design software
- The experienced team of engineers

Clescane's service pack is safe and costs less.

Clescane's service pack also applies to cranes and hoists produced by other manufacturers.

OPTIONS

Safety

Sophisticated load handling methods reduces the risk of collisions and accidents.

Productivity

Time savings in load handling and final positioning makes processes more efficient.

Cost savings

Longer lifetime of components and less maintenance work results in better economy.
